

Dear Parents:

The State Department of Social Services under which schools are licensed, continues to come up with new requirements. While some ideas are good, I do question the validity of their latest one, which is a "Classroom Phone Directory". We have always endeavored to protect and respect the privacy of our children and their families. My reasons for not participating in the directory are as follows, and you may well have additional reasons of your own:

1. Young children who have access to other children's phone numbers may abuse the privilege of the telephone, causing inconvenience to families.
2. You might not want a particular person or persons to have access to information on the days and times that your child attends school.
3. You have no control over others and who may give out your phone number and/or address.

You have the option of participating in this directory or not doing so. We must present you with the option, and we must also confirm to Social Services that you have accepted or declined to participate. PLEASE RETURN THE FORM TO US, with whatever choice you make.
